

## Wallburg Animal Hospital Sedation Form

**Please read and sign the following consent form. If you have any questions, please make sure they are answered to your satisfaction before signing the form.**

I authorize the doctor(s) of Wallburg Animal Hospital to perform the following procedure: \_\_\_\_\_ sedation and on my pet, \_\_\_\_\_. Some pets will require sedation for certain procedures in a veterinary hospital-for example: grooming, radiographs, deep ear flushes, broken nails, etc. We will only sedate a pet when the owner has been properly informed and consented to the procedure and the veterinarian truly feels it is in the pet's best interest. Sedation allows the pet to be more comfortable for the procedure; especially if they have extensive matting of their haircoat which can pull and cause pain during the cutting and grooming process. Sometimes pets will not cooperate and be still for procedures and this can be due to stress, pain, and many other reasons. We may try other protocols to see if the pet can learn to be still for the procedure but sedation may be necessary and more humane so the pet is not painful or scared. All anesthetic and surgical procedures are performed by a licensed veterinarian and I understand that hospital support staff may be used as deemed necessary by the veterinarian. I understand all pets must be **current with vaccines and free of fleas** and other external parasites to be admitted into our hospital, and our hospital may satisfy these requirements, at the owner's expense. Wallburg Animal Hospital has the best interest of your pet in mind. Our doctors and staff take every precaution to prevent adverse events related to sedation. If an emergency situation arises, your pet WILL be treated with emergency drugs, if needed, at your expense.

**To further reduce the risk of adverse events, additional pre-sedation screenings can be performed.** Please check the level of screening you wish for your pet to receive. If no choice is checked, Level 1 will be performed on pets under 7 years old; and Level 2 will be performed on pets over 7 years old. If our doctors have concerns about your pet's health, we may elect not to perform sedation without labwork.

**\*\*Initial choice of ONE option ONLY!**

\_\_\_\_\_ Level 2. This includes a pre-surgical brief physical exam and chemistry panel. This level is **REQUIRED for all pets 7 years of age or older** or by Doctor's requirement. (Grooming pets every 6-12 months) **Cost=\$ 85.00**

\_\_\_\_\_ Level 1. Pre-sedation brief physical exam only. (Included in price of sedation)

\_\_\_\_\_ Level 0. Blood work has already been performed in the last 1-2 months and deemed OK by Doctor.

\*\*While your pet is sedated/anesthetized you may request additional services by checking the additional areas:

\_\_\_\_ Microchip Placement \$40 \_\_\_\_ Ear Pluck \$15 \_\_\_\_ Nail Trim \$14 \_\_\_\_ Nail Trim Dremel \$20 \_\_\_\_  
Express Anal Glands \$15

(Grooming prices already include ear plucking, expressing anal glands and nail trim dremel)

**Owner Signature** \_\_\_\_\_ **Phone Number** \_\_\_\_\_

I am the Owner or agent for this pet and I have the authority to execute this consent. I agree to all terms listed above.
